YO TOURS · AUDIO GUIDE

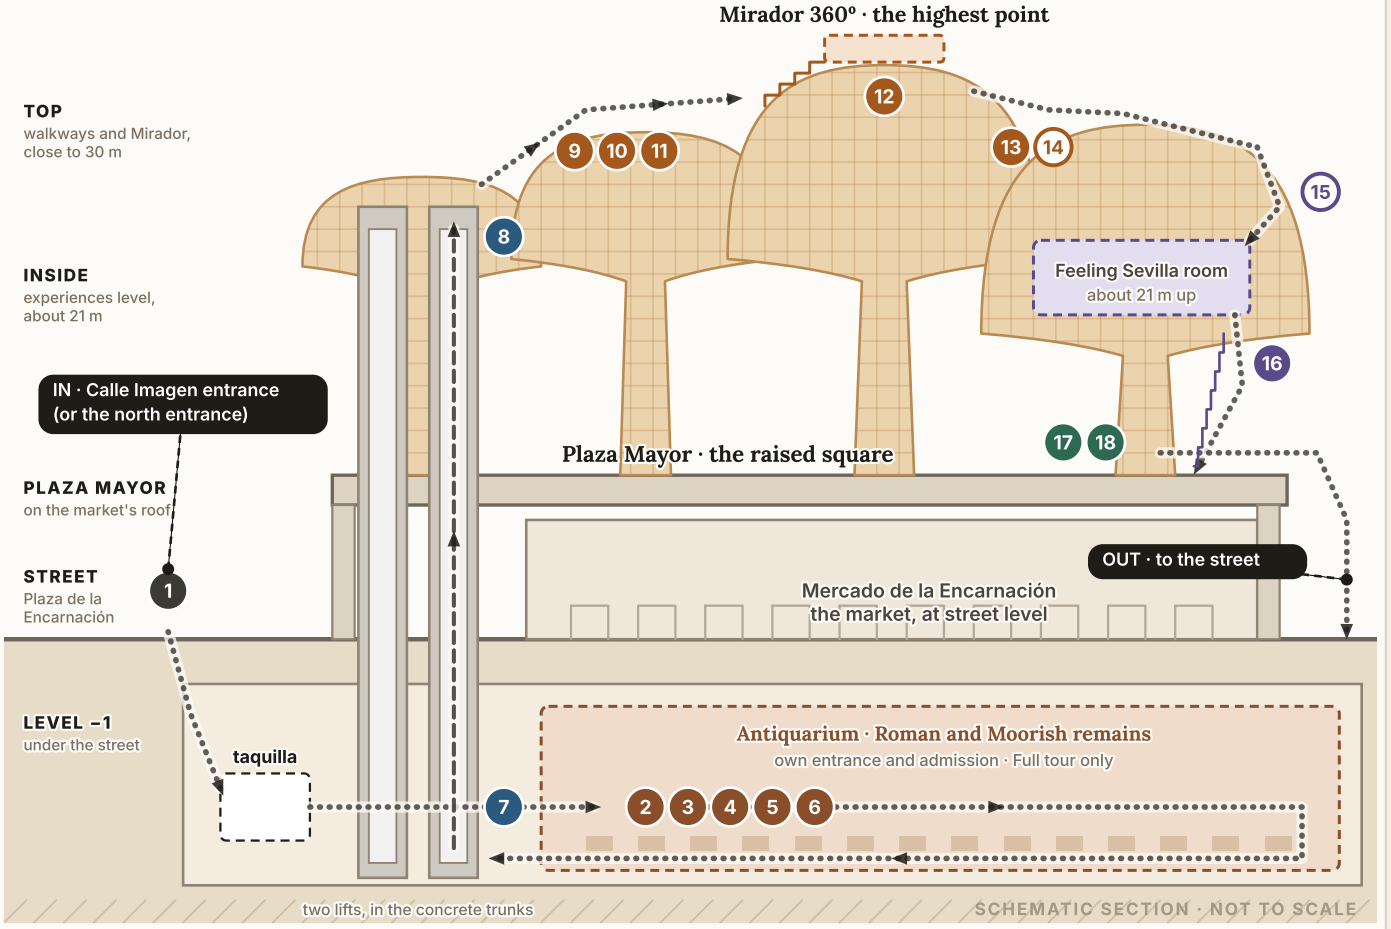

Setas de Sevilla and the Antiquarium

One building in four layers, from Roman Seville under the street to the walkways on top: 16 main stops plus 2 short Extras in one walking order, in three lengths.

1 **Bottom, top, then the middle.** Down to level −1, up by lift to the walkways and the Mirador 360º, and down again to the Plaza Mayor, where the visit ends.

2 The coloured circle is the track to play there, in track order. Hollow circles are short, optional Extras, on the Full tour only. Pages 2 to 4 show every track in its place.

3 Each track ends by telling you where to go next. This is a schematic section, not to scale. **Dashed and dotted: not yet confirmed on site.**

the welcome, the timber, the Mirador, the plaza

Shorter tours skip the Antiquarium: after the taquilla, go to the lifts beside its entrance. It is a separate museum with its own entrance and admission; if it is closed, the Full tour carries on at the lifts with 7. Times include walking and the lifts, not the Feeling Sevilla film.

The Antiquarium · 2–6

Below the square, on level −1: the remains found when the city dug for a car park that was never built. Walkways run over the excavation, from the entrance to the dig, the Roman houses and the Almohad house. Order as in the guide; the positions inside are still to be checked on site.

2 **Level −1 · Antiquarium entrance**
Found under a car park

3 **Level −1 · Antiquarium, over the dig**
Seville stacked up

4 **Level −1 · Antiquarium, Roman houses**
The House of the Column and its Medusa

5 **Level −1 · Antiquarium, walking through the Roman houses**
Bacchus, the Nymph and the Ocean

6 **Level −1 · Antiquarium, Almohad house**
The Almohad house

Separate museum, Full tour only

The Antiquarium has its own entrance and its own admission, beside the taquilla on level −1. Essential and Highlights skip it and go straight to the lifts. If it is closed when you are there, go to the lifts beside its entrance and play 7.

Find the label

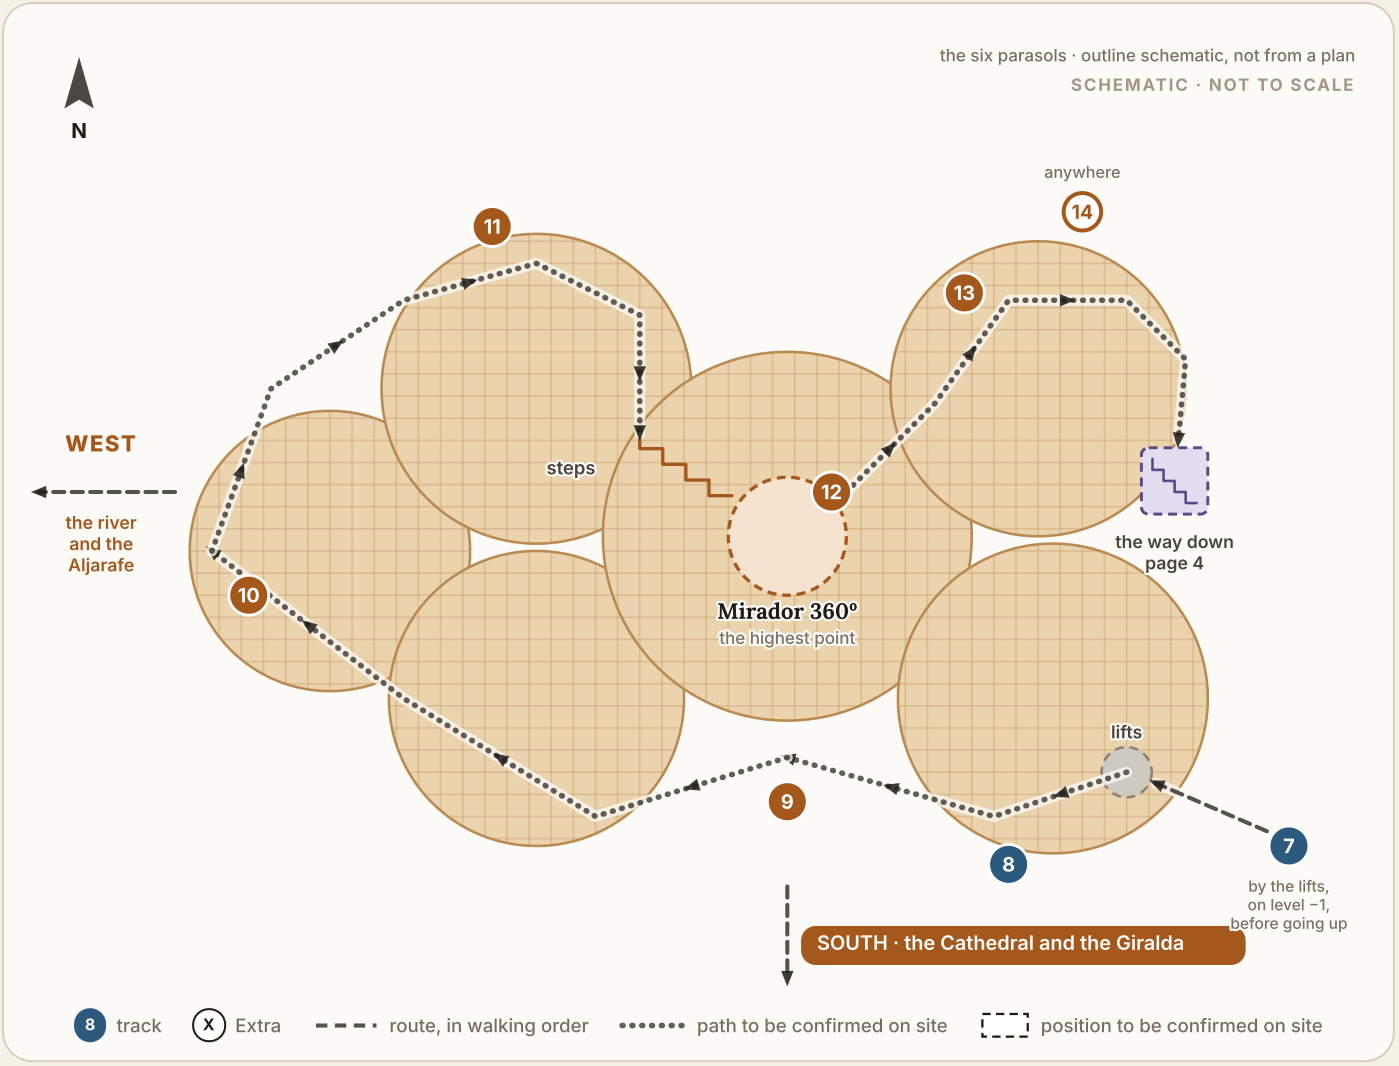

The way through has not been checked on site yet, so the drawing shows only the order. Each track names the label to look for: the Casa de la Columna, the Casa de Baco, the casa almohade.

After 6

Follow the exit signs, then go to the lifts beside the Antiquarium entrance, the Mirador access. Play 7 there, before you go up.

The walkways and the Mirador · 7 to 14

Play 7 by the lifts on level −1, and start 8 as the lift doors close. On top, walk on until the Giralda is in clear view (9), face west toward the river (10), walk on toward the steps (11), climb to the Mirador 360º (12), then back down the steps and on toward the way down (13; Extra 14 anywhere).

7	**Level −1 · by the lifts** A plaza with many lives	11	**Walkway** The glue that had to be baked
8	**Lift and first walkway** Mushrooms of wood	12	**Mirador 360º** The highest point
9	**Walkway · south side (where the Giralda is in clear view)** The Cathedral and the Giralda	13	**Walkway · toward the way down** Love it or hate it
10	**Walkway · west side (the Giralda on your left)** The river and the Aljarafe	14	**Walkway (anywhere)** **Extra** Aurora, the Setas after dark

Only the order is fixed

There is no official map of the walkway yet, and nobody has confirmed whether it runs one way. Every spot drawn here is a guess at the order, not the place. Play each track where it says.

Two views to find

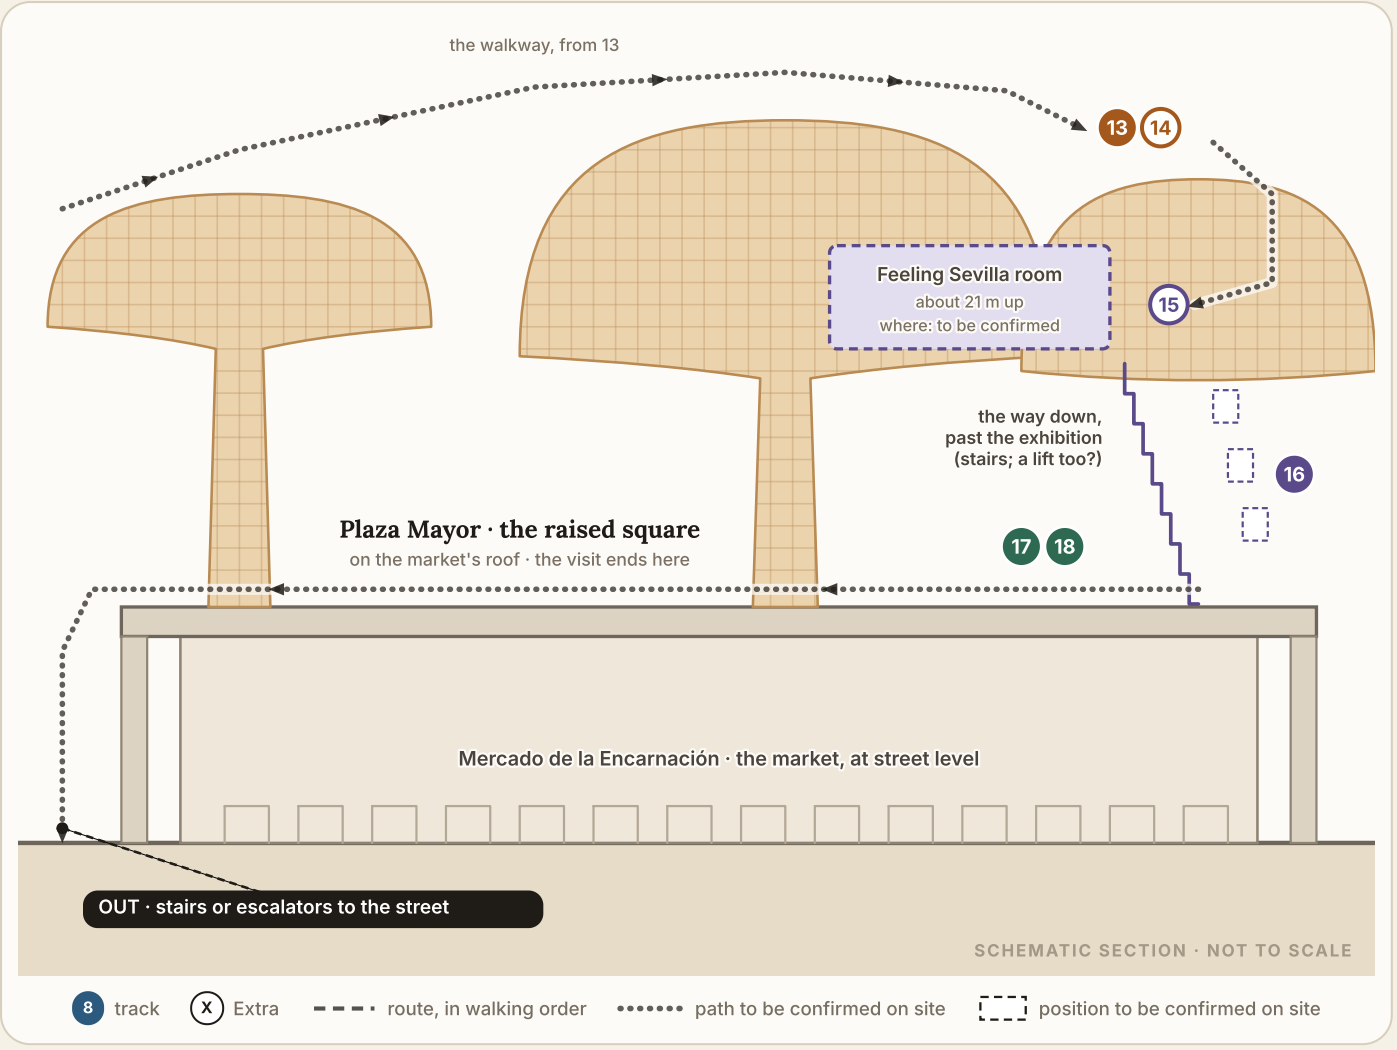

9: wherever the Giralda and the cathedral are in clear view, to the south. **10**: stand with the Giralda on your left, facing west, toward the river and the Aljarafe.

Steps to the top

The Mirador 360º, the highest point, is reached only by steps. Some walkway ramps are steep. After 12, go back down the steps and on toward the way down.

Coming down and the Plaza Mayor · 15 to 18

From the walkway, toward the way down. If you watch the Feeling Sevilla film, play Extra 15 before you go in. Then the way down past the exhibition (16), and the Plaza Mayor, the raised square on the market's roof, where the visit ends (17, 18).

15 **Feeling Sevilla · before you go in**
Extra The room at 21 metres

16 **The way down · the exhibition**
From building site to city symbol

17 **Plaza Mayor · above the market**
The market that waited 37 years

18 **Plaza Mayor**
The plaza on stilts, and the way out

Feeling Sevilla (15)

An optional Extra about the film room, on the experiences level inside the parasols. Play it before you go in. Where the room is, and when you reach it, is still to be confirmed on site.

The way down (16)

Play 16 as you walk down past the exhibition. At the bottom you come out on the Plaza Mayor, the big raised square under the parasols. Whether there is also a lift down is still to be confirmed.

The end (17, 18)

Both play on the Plaza Mayor, with the market under your feet. To leave, follow the signs down to the street, by the stairs or the escalators. You do not go back to level −1.

The stops

Every track in walking order: # on your player, where to play it, the title, main stop or Extra, minutes of listening, and the lengths it belongs to (Full, just under 1 h; Essential, about 35 min; Highlights, about 25 min; walking and lifts included, the Feeling Sevilla film not). Hollow circles are Extras.
